

DIY Series 2: Photo frame

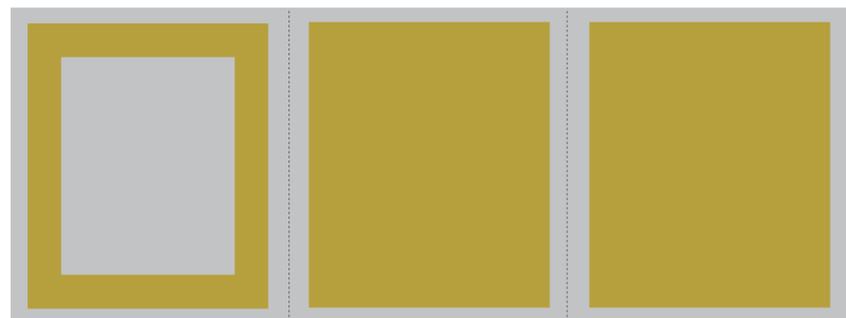

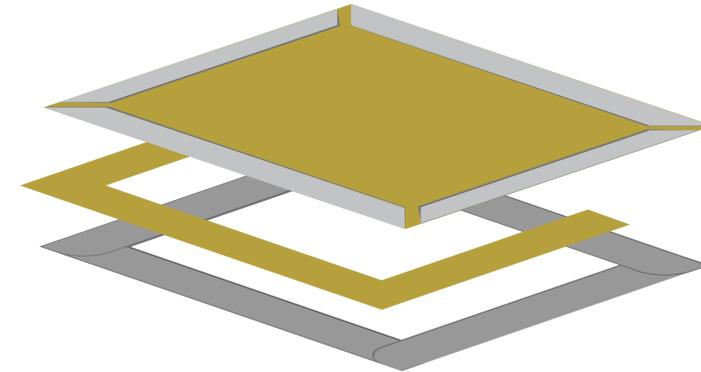

1 Take a cardboard and measure 7" by 9" 3 rectangular pieces.

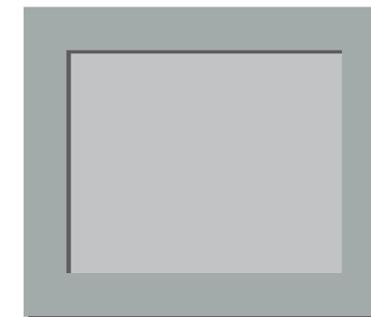

5 Glue all the three pasted cardboard and start gluing all the three together.

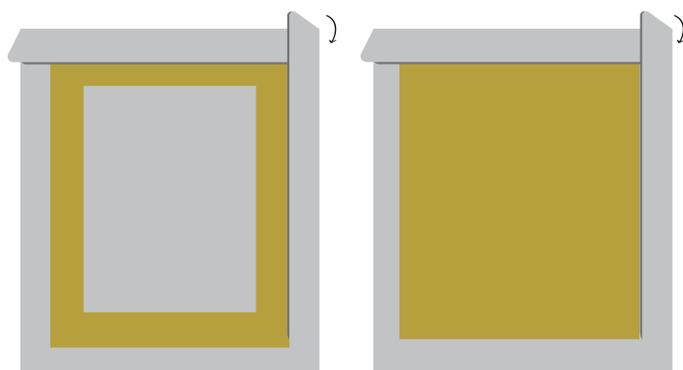

2 Measure the inner length 6" and height 4" and remove the inner unwanted cardboard, making it hollow.

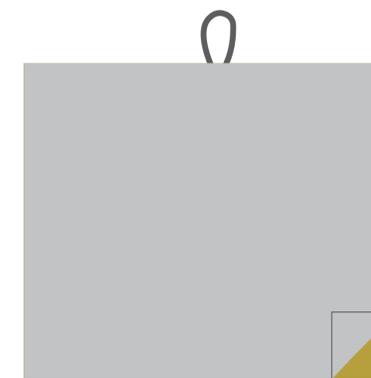

3 Take a nepali paper and place the cut cardboard pieces and cut and paste.

6 This is the outcome after pasting.

4 Fold the sides of the paper on all four sides and paste.

7 Cut a small thread and place it on top and glue it on the middle portion of the cardboard.

Cut from left over piece of the Nepali paper of size 9" by 7" and paste it at the back portion.
